2017 GHG Emissions By Sector

SMOG, SOOT, AND ASTHMA

BALTIMORE'S
PROJECTED CLIMATE IN
2080 WILL RESEMBLE
CLEVELAND,
MISSISSIPPI.

WHAT WOULD INVESTING IN CLEAN TRANSPORTATION GET US?

A recent analysis by the Georgetown Climate Center found that investing \$3 billion annually in the Northeast states to reduce vehicle GHG emissions would (4):

- Save thousands of lives in the region in 2030.
- Create more than 113,000 jobs in D.C. and Maryland through 2030
- Put \$11.81 billion in D.C. and Marylanders pockets through 2030

73% of Marylanders support a policy to limit transportation pollution (5)

POLL RESULTS

There is **bipartisan support** in Maryland for a region wide approach to modernizing our transportation sector.

Democrats 80%

Independents 61%

Republicans 68%

74%

of Maryland voters consider **air pollution to be a serious problem.**

**MARYLAND AND THE REGIONAL
GREENHOUSE GAS INITIATIVE (RGGI)**

Timeline

- **October 1, 2019** – Release of framework for a draft regional policy proposal
- **October/November 2019** – Gather and consider public input on framework
- **December 2019** – Release of a regional policy proposal in the form of a draft agreement called a “Memorandum of Understanding (MOU)”
- **Spring 2020** – Jurisdictions release a final agreement
- **Spring – Fall 2020** – Participating jurisdictions develop a “model rule” and take any legislative steps that could be needed to implement the regional program
- **2021** – Jurisdictions conduct rulemaking process to adopt regulations
- **As early as 2022** – Program implementation begins.

How to take action

- Submit comments online at the TCI portal at: <https://www.transportationandclimate.org>
- Tell your state & local elected officials to tell Gov. Hogan we need a strong program based on IPCC targets & substantial investments for transit, walking and biking infrastructure, & clean buses
